

**Amigos de Guatemala** was created to develop a partnership for caring individuals and service organizations supporting education and health in Guatemala. Without this generosity, the work of Amigos de Guatemala would not be possible. Support comes in one or more of the following ways:

Sponsoring an Amigos de Guatemala **scholarship** student.

Making an **annual contribution** supporting our projects in education and health.

**Partnering** with other service clubs to support grants.

**Donating** needed educational and medical supplies.

**Volunteering** in Guatemala and/or in the United States.

Many individuals and organizations support Amigos de Guatemala in all five of these avenues of support.

We are very grateful for the faithful support of many caring individuals, service clubs, and corporations.

**AMIGOSDEGUATEMALA.ORG**

Amigos de Guatemala's mission is to provide support and opportunities for all young people in Latin America to receive and complete their middle and high school education and enable access to good medical care. Our goal is to provide a solid foundation for these young people to pursue and engage in meaningful work in diverse societies.

**YOUR DONATION  
WILL MAKE A  
DIFFERENCE  
BY PROVIDING  
A ONCE IN A  
LIFETIME OPPORTUNITY.**

#### **SPONSOR A STUDENT WITH A SCHOLARSHIP**

As a sponsor, you will receive a letter containing a photo of your sponsored student and biographical information and three letters during the school year from your student to help you learn about your student's life through his or her own words and experiences. You can either provide a yearly scholarship for a middle school student for \$400 or a high school student for \$800.

#### **PROVIDE EDUCATIONAL SUPPORT**

Our library provides a safe environment where students can study, access multi-media and internet resources, national publications, Spanish and English language books, and obtain career and reference information. The library is also available for community forums.

#### **SUPPORT HEALTHCARE NEEDS**

Access to good medical care can be as vital as access to a good education for these children. Your donation helps cover some of these medical needs, from providing dental and vision care to purchasing catheters and other medical equipment.

#### **BECOME AN AMIGOS FRIEND**

With commitment to approximately 70 scholarship students per year, as well as various community health initiatives, we have constant and unpredictable needs not specifically addressed by our main funding categories. Your contribution could allow us to maintain our school equipment or help with a student's family emergency.
